Hi David,

Cadmus, Calvin and I are done reviewing the questions and responses for Cat Canyon. Before I send this off to Pat and Jeff I wanted to see if you would like to look at it. Calvin and I think that while there are mistakes in the application that should be corrected, that if they fix these, there is no reason for them not to go out for public comment as they are planning to do. Please let us know if you have any questions.

The first file is the response and the second is our review of the response.

Thanks!

Michele

Good Afternoon,

Attached for the EPA's review are responses to the preliminary questions regarding the Cat Canyon AE. The PDF contains attachments (revisions to the application) whereas the word doc does not. Please me know if you have any questions.
